

PROFESSIONAL OVERVIEW

I am a motivated and hardworking student with good knowledge of computer science and software development. I have experience in both front-end and back-end work, as well as database management. I completed one month of industrial training to gain practical experience. I am eager to use my skills, learn new things, and grow in a professional environment.

INDUSTRIAL TRAINING

Actecal Pvt .Ltd | Jun-2025 to July 2025

Duration: 1 Month

- Completed one-month industrial training focused on gaining practical knowledge of software development and real-world project workflow. During the training, learned about front-end and back-end integration, database connectivity, and version control using Git. Worked on small-scale projects to understand team collaboration, debugging, and deployment processes.

Key Learnings:

- Basics of full-stack development (HTML, CSS, JavaScript, React, MySQL)
- API handling and data management
- Code versioning using Git and GitHub
- Understanding of software development life cycle (SDLC)
- Improved problem-solving and teamwork skills

Projects

Hospital Management System — *React.js, Node.js, MySQL*

Duration: 1 Month (During industrial training)

- Designed and developed a full-stack web application for managing doctor profiles, appointments, and patient records.
- Implemented CRUD operations (Create, Read, Update, Delete) using React Hook Form with validation and MySQL database connectivity.
- Integrated backend APIs for storing and fetching data dynamically.
- Created a responsive and user-friendly dashboard interface with search, filter, and modal-based forms.

2. Digital Notice Board System — *Flutter, REST API, MySQL*

Duration: 1 Month (For College Project)

- Built a mobile application that allows admin users to post and update notices digitally for students.
- Integrated user authentication and dynamic content loading via REST API.
- Designed an interactive UI using Flutter widgets for seamless user experience.

EDUCATION

DIPLOMA(CSE)3rd Year

Government Girl's Polytechnic Almora

12th

G.I.C. Dashaula Badiyar, Almora

Percentage% :79.8

SKILLS

- Communication
- Teamwork
- Time management
- Leadership
- Adaptability

PROGRAMMING SKILLS

- C,C++
- HTML
- CSS
- Javascript
- React
- SQL
- Flutter (App Development)

LANGUAGE

- Hindi
- English

TOOLS

- Git , GitHub
- Vs Code
- Android Studio
- Cursor (AI tool)
